Robust and durable pliers

Rapid offers a wide range of robust and durable pliers tailored to the needs of professionals and do-it-yourselfers. The smart design and unique features are the result of our tradition of innovation and the fact that we have taken time taken to understand the needs of our users.

HD31 R10540310 530 10 70 5 73 Staples 6-12 mm

Powerful, nickel-plated staplers with finger stop. Ideal for air-cushion envelopes, small boxes, etc. Works with 2 different anvils, easy to attach. Perfect for mailroom, office and warehouse.

S27 R24142811 190 6 30 5 24 Staples 6 mm

This beautiful stapler staples up to 30 sheets without a problem, using the same staples. The patented SuperFlatCinch technology ensures super flat results and reduces paper stacks by 40%.

R23

5 18 PRO Staples 4-8 mm

Lightweight, easy-to-use metal tacker ideal for demanding, professional jobs where precision is required. Suitable for various jobs such as upholstering furniture, fastening thin fabrics, leather paper, labels or delicate textiles.

Packaged in T&F blister R20510450 550 5/450

Packed in box R10600521 560 6/912

R153 R20511050 550 5

5 53 PRO Staples 4-8 mm

Light, easy-to-use metal tacker ideal for demanding, professional jobs where precision is required. Suitable for various jobs such as upholstering furniture or attaching textiles, leather paper or labels.

R14 R20511450 560 5

5 140 PRO Staples 6-8 mm

Light, easy-to-use metal tacker ideal for demanding, professional jobs where precision is required. Suitable for various jobs such as fastening thin materials e.g. insulation, vapour control film, tarpaulin, cardboard or other materials requiring extra tensile strength.

Scan for all staple guns

R33 R20510650 870 5

5 19 PRO Staples 6-14 mm

Powerful tacker without compromise designed for demanding professional applications. With very long service life and patented 3-step adjustable impact force. Suitable for many heavy-duty jobs such as fastening heavy textiles, carpets, leather and canvas.

R353 R20511250 870 5

5 53 PRO Staples 6-14 mm

Powerful tacker without compromise designed for demanding professional applications. With very long service life and patented 3-step adjustable impact force. Suitable for many heavy-duty jobs such as fastening heavy textiles, carpets, leather and canvas.

R34 R20511550 870 5

5 140 PRO Staples 6-14 mm

Powerful tacker without compromise designed for demanding professional applications. With very long service life and patented 3-step adjustable impact force. Suitable for many heavy-duty jobs such as fixing insulation, vapour barriers, plastic sheeting, tarpaulin, cardboard or other materials requiring extra tensile strength.

R253 R20009450 400 5 3 53 Staples 6-14 mm

Lightweight, easy-to-use tacker for DIY, home projects or simple professional jobs. Ideal for upholstering furniture, decorating with various types of textiles or attaching carpet, quilts, leather or thicker textiles.

R453 R20009502 390 5 3 53 Staples 6-14 mm

Lightweight, easy-to-use tacker for DIY, home projects or simple professional jobs. Ideal for upholstering furniture, decorating with various textiles or attaching carpets, quilts or leather. Also suitable for working with thin wood and other light carpentry work.

R83 R20011550 400 5 3 13 Staples 6-14 mm

Lightweight, easy-to-use tacker for DIY, home projects or simple professional jobs. Ideal for upholstering furniture, decorating with various textiles or attaching carpets, quilts or leather. Also suitable for working with thin wood and other light carpentry work.

R13 R20443901 310 5 3 13 Staples 4-10 mm

The R13 is suitable for smaller hands. This makes it ideal for upholstering furniture, decorating with various textiles or attaching quilts, posters or leather.

R53 R20443850 300 5 3 53 Staples 4-10 mm

Lightweight, easy-to-use tacker for DIY, home projects or simple professional jobs. Ideal for upholstering furniture, decorating with various textiles or attaching quilts, posters or leather.

Compacta R11520110 630 16 2 53 Staples 6-14 mm

Easy-to-use tacker for jobs in and around the house. The adjustable impact force allows the tacker to be used with different materials. A good solution for upholstering furniture and decorative work with different types of cloth or textiles.

R64 R21000860 400 10 3 140 Brads 15 mm Staples 6-14 mm

Lightweight, easy-to-use tacker for DIY, home projects or simple professional jobs. Made of sturdy, robust plastic for powerful performance and long life.

ALU610 R40107318 530 6 3 13 Staples 6-10 mm

Made for smart and effective DIY use. This unique tacker has an inverted handle that makes it possible to work even without the support of material or a stable, flat surface.

ESC058 R467000000 880 3 58 Staples 8 mm

Fast handtacker made of cast aluminium that has been tried and tested for decades. The ideal handtacker for professionals and upholsterers. Pull handle for quick staples. Infinitely adjustable striking force.

ALU840 R22876000 720 5 5 140 Brads 15 mm Staples 6-14 mm

Powerful, ergonomically superior aluminium tacker for demanding professional applications and precise handling. Excellent performance and long service life.

ALU953 R5000516 600 3 3 53 Brads 15 mm Staples 6-14 mm

For DIYers looking for professional performance. The ALU953 is a revolutionary tacker that reduces the force required by 65% compared to conventional tackers.

Rapid SVENSK EFFIXITY

Scan for all cable tackers

For $\varnothing 4,5$ mm cables

R28 R20511750 860 5

5 PRO 28 Staples 9-11 mm

Unique, superior cable cutter for a variety of demanding professional jobs. Especially for low-voltage cables up to 4.5 mm in diameter. The R28 features patented 3-step adjustable striking force.

For $\varnothing 6$ mm cables

R36 R11520110 860 16

5 PRO 36 Staples 6-14 mm

Hammer tackers

R11 R20725902 1020 10

2 PRO 140 Staples 6-10 mm

The R11 is a powerful, precise hammer picker developed for demanding professional applications. Ideal for jobs such as fixing roofing, insulation material, vapour and plastic sheeting.

Smart, powerful hammer tackers

Sometimes for a job you need to attach material quickly with a large number of staples, then Rapid hammer tackers are the best choice. The Rapid range brings smart, useful features to every user, such as recoil technology which ensures that the hammer tacker is easily raised back up by the recoil. This reduces hand strain as less effort is required.

Scan for all hammer tackers

R19 R20726001 410 10

2 PRO 13 Staples 4-6 mm

Lightweight, easy-to-handle hammer tacker perfect for regular, intensive use. Ideal for jobs such as fixing labels, posters, textiles, plastic sheeting or insulation material.

R311 R5000005 1060 5

2 PRO 140 Staples 6-12 mm

Offering superior precision and longevity, the R311 is an effective hammer picker and capable of tackling a wide range of demanding professional jobs.

R553 R10642912 1700 5

2 PRO 8 Brads 15-20 mm 53 Staples 8-20 mm

The R553 is a powerful electric tacker ideal for demanding professional use and precise handling. With robust components and durable build quality.

R214 R24171201 1930 5

2 PRO 140 Staples 8-16 mm

Powerful electric tacker ideal for demanding professional use and precise handling. With robust components and durable build quality. The R214 offers a long service life, even in intensive use.

Hobby R5000579 1260 4

2 8 Brads 15 mm 53 Staples 6-14 mm

Lightweight and ergonomic, this tacker is easy to use for all applications around the house. Ideal for fixing fabric, for small decoration work or for fixing very fine wooden pieces.

Electric, ergonomic tackers

Rapid tackers deliver high performance and precise fastening. Like every Rapid product, these tackers feature excellent ergonomics, performance and features focused on the user.

Scan for all electric tackers

ESN114 R22275001 1810 5

2 8 Brads 15 mm 140 Staples 6-14 mm

A powerful electric tacker for more demanding projects around the house. The ESN114 is ideal for fastening thinner wood and materials such as cardboard, plastic sheeting or paper which requires extra traction.

ESN530 R5000129 1130 3

2 8 Brads 15 mm 53 Staples 6-14 mm

Easy-to-use, powerful electric tacker for more demanding projects around the house. The ESN530 is ideal for furniture upholstery, textiles, carpet, leather or fastening thin wood.

BTX530 R5000128 1190 3

2 8 Brads 15 mm 53 Staples 6-14 mm

This versatile cordless stapler is ideal for jobs in and around the house that require more freedom of movement. The BTX530 handles more than 1,300 staples/brads per battery charge. Perfect for everyday use and jobs such as fastening fabrics, textiles, carpets, leather or thin wood.

BATTERY TACKER BTX530

Scan for all electric tackers

BN50 R5000836 6830 2 **PRO** 2 Brads 25-50 mm

The BN50 is a powerful, mobile, cordless finishing tacker for professionals. Ideal for finishing work, skirting boards, frames, panelling, floors, panels and battens.

BN64 R5000837 6930 5 **PRO** 2 16A Brads 32-64 mm

The BN64 delivers powerful, mobile, cordless performance for professionals looking for a superior finish cutter. Ideal for finishing work, skirting boards, cabinets, boxes, frames, furniture, panelling and battens.

Pneumatic tackers

When a job requires high speed and precise fastening, pneumatic tackers always deliver the best results. These powerful, efficient tackers make working with long-legged staples easy and hassle-free. Each model delivers ergonomic performance combined with its lightweight construction. This makes it highly suitable for construction, roofing, panelling, upholstery or mouldings.

Scan for all pneumatic tackers

PS101 R5000051 1670 5 2 53 Staples 6-16 mm

Light, manoeuvrable and versatile thanks to its magnesium body and long nose for precise work. The PS101 is a pneumatic tacker and ideal for working with textiles, leather, tapestries, labels and light joinery.

PB131 R5000054 2570 4 **PRO** 2 8 Brads 15-50 mm

The PB131 professional pneumatic tacker makes it easy to do frequent and fast work on wood panelling, door frames, wooden deck boards and furniture construction.

Scan for all fence, garden and vine pliers

FP216 R23467900 380 10 2 VR16 Hogring 2-8 mm

These reliable, easy-to-use fencing pliers are ideal for fixing fencing and other applications in tight or confined spaces. Designed for VR16 hog rings.

FP222 R23468100 360 10 2 VR22 Hogring 5-11 mm

For more demanding jobs in the garden, such as securing thicker mesh or fencing. These fencing pliers are a durable, reliable solution that delivers good results. Designed for VR22 hog rings.

GP238 R24311200 280 12 2 VR38 Hogring 6-11-16 mm

Designed to make work in the garden easier and more comfortable. These reliable pliers are ideal for tying up young plants or attaching branches and nets.

FP20 R23468000 220 10 2 VR22 Hogring 2-11 mm

Versatile and easy to use - the FP20 fencing pliers are suitable for use with VR16 and VR22 hog rings, making them ideal for a diverse range of applications, including fixing mesh or fencing.

LIG150 R40107753 390 8 2 C50 Hogring 4-14 mm

The professional standard, durable tying pliers with a high-capacity magazine ideal for securing branches. Designed for optimum performance with the Rapid C50 hog rings.

LIG175 R40107754 460 10 2 C75 Hogring 6-20mm

The professional standard, durable tying pliers with a high-capacity magazine and precise performance. Ideal for securing large branches, designed for optimum performance with the Rapid C75 and C85 hog rings.

Battery-powered binding machine

BHX50

A compact binding machine with integrated spool. The spool is fixed to the machine and guarantees optimal use. Simple and quick loading system. Replacing the binding wire is easy thanks to the smartcut system. Works on branches up to 25mm in diameter. Tying tension adjustable via LCD screen.

The BHX50 comes with two batteries and a quick charger that can charge 2 batteries. Each battery takes less than 2 hours to fully charge. The 2 batteries have a total capacity of 18,000 bonds. The battery is compatible with the BHX50 binding machine and the BHX30 pruning shears. The deluxe case includes 8 spools of binding wire (approx. 7,500 bindings) and a pair of shears. The BHX50 works with wire spools made of plastic (PE) and paper.

PE plastic binding (12 spools)
Article number | R5001598

Paper binding (12 spools)
Article number | R5001599

Standard included

- Luxury case
- 8 spools of binding thread
- Scissors
- Two 14.4V batteries (2.5 Ah)
- Quick charger

The RP05 eyelet tool features an integrated perforation function and comes with 100 eyelets (4 mm diameter). Ideal for use on leather, shoes, canvas and more.

Hot-air guns

A hot air gun is extremely versatile and can help with jobs where a direct source of intense heat is required. The ability to melt, shrink, bend or even weld material together is extremely useful for diverse jobs in varying conditions. All Rapid products are safe and easy to use and, as always, ergonomics is an important functionality and design factor. The result is a hot air gun with perfect balance and a handle that offers extra comfort and reduces fatigue.

Terms & condition

General terms and conditions of sale and delivery of Westparts B.V. in Wieringerwerf, The Netherlands

For the private owned company with limited responsibility WESTPARTS B.V., by law established in Hoorn, with office space in 1771 SP Wieringerwerf, De Stek 7.

Article 1. Validity of these terms and conditions

These terms and conditions are valid for every offer and/or every agreement between Westparts B.V. hereinafter referred to as "Westparts", and customers who have been informed about the terms and conditions, as long as none of the parties have denied in writing the validity of the terms. If one or more articles are regarded as invalid, the remaining articles remain valid.

Article 2. Offers and agreements

- All offers are without obligations, unless otherwise explicitly agreed upon in writing. Westparts has the right to withdraw any given offer within two working days after acceptance.
- Agreements are valid only upon written confirmation from Westparts to the customer; this also concerns agreements made through an intermediary.

Article 3. Delivery

The customer is obligated to accept the products when these are delivered to him, or when the products are made available to him according to the agreement. If the customer refuses to do so, or is late with passing on information or instructions essential for the delivery, the products will be stored at the customers risk. The customer will in this case be responsible for all possible costs in this connection, and at least the storage costs.

Article 4. Delivery time

Any dates quoted for delivery are approximate only, unless otherwise has been agreed upon. If otherwise has been agreed upon, and Westparts do not deliver on time, the customer is obligated to hold Westparts liable in writing.

Article 5. Back orders / partial deliveries

Westparts has the right to deliver partially. This does not apply if the partial delivery has no independent value. If the products are delivered partially, Westparts has the right to invoice each delivery independently.

Article 6. Technical requirements etc.

If the products delivered in the Netherlands are to be used outside the Netherlands, Westparts is responsible for that the delivered products are in accordance with the technical requirements and/or standards that are demanded by laws or regulations in the country where the products are to be used, if the information regarding use in another country has been given upon finalizing the contract. All other technical requirements the customer has regarding the to- be -delivered products and which differ from the normal standards, must be explicitly informed upon the finalizing of the contract.

Article 7. Changes

Westparts has the right to deliver products that differs from the products described in the sales contract. If Westparts uses this right, and delivers a product that substantially differs from the product agreed upon, the customer has the right to annul the contract. The customer has the right to do so within 14 days after delivery date, or when he should have noticed the substantial differences.

Article 8. Termination of the contract

- Westparts' claims towards the customer are immediately effective in case of the following circumstances:
 - if after finalizing the agreement, Westparts receives information that gives Westparts reason to believe that the customer will not fulfil his obligations
 - if Westparts has asked the customer for security for the order when finalizing the contract, and security has not been given or is unsatisfactory.In case of the above mentioned circumstances, Westparts has the right to delay further execution of the agreement, as well as annul the agreement. This does not effect Westparts' rights for compensation.
- In case of unexpected circumstances having influence on persons and/or materials used or planned used by Westparts when carrying out the agreement, and if the unexpected circumstances are of such kind that it makes the execution impossible or utterly difficult, and/or leads to such costs that the carrying out of the agreement can not be reasonably defended, Westparts has the right to annul the agreement.

Article 9. Warranties

- Westparts is not responsible for production faults concerning the delivered goods.
- Westparts delivers goods with normal factory warranties and the production units are thus responsible in all cases.

Article 10. Ownership

- Products delivered by Westparts remains property of Westparts until the customer has fulfilled all responsibilities regarding all final contracts and agreements with Westparts:
 - any in return commitments with reference to delivered products or products to be delivered
 - potential claims due to the customer not having fulfilled his commitments according to the agreementProducts delivered by Westparts falling under 10.1, can only be re-sold within a framework of a normal company management. The customer does not hold any authority to pawn or to establish any rights on the products. In case the customer does not live up to his responsibilities or there is a reasonable doubt regarding whether or not he will do so, Westparts has the right to remove or have removed products falling under article 10.1, from either the buyer or any third party holding the products in stock. The customer is legally bound to fully co-operate under penalty of a daily fine of 10% of the amount still to be paid
- If a third party wants to establish any rights on the under the rights of ownership delivered goods, the buyer is legally bound to inform Westparts as soon as in fairness can be expected. The customer is obliged to:
 - insure and to keep insured the under the rights of ownership delivered good against fire-, explosion-, and water damage and against theft and to hand over the insurance policy for inspection if requested to do so.
 - to pawn all claims from the customer to the insures in connection to the under the rights of ownership delivered goods, to Westparts in the way that is prescribed in art. 3:239 BW.
 - to pawn the demands that the customer gets towards his buyers from reselling under the rights of ownership delivered goods by Westparts, to Westparts in the way that is prescribed in art. 3: 239 BW.
 - to mark all under the rights of ownership delivered goods as Westparts property.
 - to lend cooperation in other ways to all reasonable measures that Westparts will take safeguarding her rights of ownership in connection with the goods and which do not unreasonably harm the customer in the normal practise of his company.
- If a third party wants to establish any rights on the under the rights of ownership delivered goods, the buyer is legally bound to inform Westparts as soon as in fairness can be expected.
- The customer is obliged to:
 - insure and to keep insured the under the rights of ownership delivered good against fire-, explosion-, and water damage and against theft and to hand over the insurance policy for inspection if requested to do so.
 - to pawn all claims from the customer to the insures in connection to the under the rights of ownership delivered goods, to Westparts in the way that is prescribed in art. 3:239 BW.
 - to pawn the demands that the customer gets towards his buyers from reselling under the rights of ownership delivered goods by Westparts, to Westparts in the way that is prescribed in art. 3: 239 BW.
 - to mark all under the rights of ownership delivered goods as Westparts property.
 - to lend cooperation in other ways to all reasonable measures that Westparts will take safeguarding her rights of ownership in connection with the goods and which do not unreasonably harm the customer in the normal practise of his company.

Article 11. Complaints

- The customer needs to (let) check the purchased goods up on delivery or as soon as possible after the delivery. The customer has to check if the delivered goods answers to the agreed upon, namely:
 - if the correct goods have been delivered
 - if the delivered goods answer to the agreed upon quantity
 - if the delivered goods meet the agreed upon quality requirements or
 - if these are lacking - if they do meet the demands one may have for normal use and/or commercial purpose
- If visible faults or shortages are established the customer has to inform Westparts within 8 days after delivery.
- Non visible faults have to be informed in writing within 8 days to Westparts, after the establishing of the faults, yet at the very latest within the given factory guarantee.
- Also when the customer complains in time, his obligation to payment and the purchase of the ordered goods stays valid. Goods can only be returned to Westparts after the foregoing permission in writing.

Article 12. Price increase

If Westparts has a special price agreement with a customer, Westparts nevertheless has the right to raise her prices, and has the right to charge the prices according to her valid pricelist upon delivery. If the price increase is more than 10%, the customer has the right to annul / disband the agreement.

Article 13. Packaging

The customer is obliged to return the transport packaging empty and undamaged within 30 days. If the customer does not meet his obligations with regards to the packaging, all extra costs to follow, will be for his own account. Such costs may be: costs due to late return shipment, costs of replacement, repair or cleaning.

Article 14. Payment

- Unless otherwise expressly stated payment for the goods is due no later than 30 days after invoice date:
 - by legal currency to Westparts bv
 - by transferring the due amount to the informed account numbers in property of WestpartsIf full payment is not made by the due date, the buyer will automatically be in omission, and will be charged with an extra 1% interest per month, based on the amount he has to pay.
- In case of liquidation, bankruptcy, delay of payment from the customer, the obligations will be immediate effective.
- Payment should be made without discounts or settlement.
- Payment made by customer will first serve to settle all unpaid interest and costs, and then to settle the oldest invoice due, even if the customer states that payment is meant for a later invoice.

Article 15. Collection costs

- If the customer is inadequately or neglectful in carrying out his obligations, all reasonable extra costs for collecting the payment will be for the customers account. The minimum costs will be:

-Up till € 2.950,-	15%
-From above amount and up till € 5.900,-	10%
-From above amount and up till € 14.750,-	8%
-From above amount and up till € 58.900,-	5%
-From above amount and up	3%
- If Westparts can document higher costs made in connection with collecting the money, which were necessary and also reasonable, these costs will also be for the customers account. All judicial and extrajudicial collection costs that Westparts makes, are all to be paid by customer. This is applicable only in case of a legal process

Article 16. Liability

- Westparts is to the customer only liable:
- For damage due to shortcomings in the delivered goods concerns only the liability as settled in article 9 of these General Terms and Conditions,
 - Westparts is liable if damage has been caused by intention or crude guilt of Westparts or her executive inferiors.
 - The liability of Westparts is limited to the amount stated by the insurance, as far as the liability is covered by the insurance.
 - If the insurance in any case does not cover or does not proceed with payment, the liability will be limited to the invoice amount or if no invoice is existing the value of the agreed upon achievement.

Article 17. Force Majeure

- Under force majeure is to be understood:
 - Circumstances that will enable the fulfillment of the agreement, which are not ascribable to Westparts. Among these the following will be included (if and as far as these circumstances make the fulfillment impossible or unreasonably complicated): strikes in other companies than Westparts', wild strikes or political strikes; general shortage or lack of necessary raw materials and other goods or services that are necessary to reach the agreed upon performance; not foreseen stagnation in connection with suppliers or other third parties who Westparts is depending on and general problems in transport.Westparts also has the right to refer to force majeure if circumstances that enable the fulfillment occur after Westparts should have met her obligations.
- During the period of force majeure the deliveries and other obligations of Westparts will be postponed. If this period due to force majeure which in Westparts is not able to meet her obligations, lasts longer than 3 months, both parties are entitled to annul the agreement, without any obligations with regards to compensation.
- If Westparts in the beginning of the period of force majeure already partially has fulfilled her obligations, or is able to fulfil her obligations only partially, Westparts has the right to invoice the partially delivered goods, or the goods that are to be partially delivered, and is the customer obligated to regard this invoice as a separate contract. This does not apply if the partial delivery has no independent value.

Article 18. Disputes

As a deviation from the statutory rules for the authorities of the civil court, all disputes between the customer and Westparts, as long as the court has the necessary authorities, will be settled by the Civil Court in Alkmaar. Nevertheless Westparts has the authority to summon the buyer to an according to the law or the applicable international treaty qualified court.

Article 19. Applicable law

All relationships between Westparts and the customer will be governed by Dutch law.

Article 20. Changes in the General terms and conditions

Westparts has the right to change the General terms and conditions. The changes will come into force on the announced time of commencement. Westparts will send the renewed terms and conditions to the customers in time. If no time of commencement has been announced to the customer, the changes will come into force as soon as the customer has received the announcement.

Article 21. Translations

In case of conflict between a translation and the Dutch version of these terms and conditions, the Dutch text shall prevail.

The above terms and conditions have been deposited with the Chamber of Commerce at Alkmaar under number 36040554.1781

Staples & nail guide

Find the right type of staple or nail. This staples and nails guide makes it easy to find the type that fits your needs.

With each product you will find the information you need to find the right staples or nails. On this page you can read how to determine the correct length. The table below contains information about the dimensions of different staples or nails. On the next page you will find an overview of which staples or nails you need for your Rapid tacker.

Fine wire staples - for fabric, textiles and leather

The best choice for fixing thin material, such as covering furniture or stretching a canvas on a wooden frame. Small, thin, discreet. Does not create large holes or tears in the material.

Standard staples – for home, florists and office

The best choice for stapling paper and other thin material. The staples are made of soft material. Ideal for post office, (flower) store, home and office.

Fine wire staples - for corrugated cardboard, plastic films and carpet

The right choice for attaching material such as plastic film, insulation film, corrugated cardboard or carpets. The wide wire ensures that the material stays securely in place.

Cable staples – for cables and wires

These staples have a round head and are therefore suitable for fixing low-current cables up to 50V, for example computer, stereo and telephone cables. For different diameters (4.5 mm and 6 mm).

Select the right length

The thickness and type of material determine the length to be used.

Standard
The staple or nail should be three times as long as the material to be fastened.

Hard materials
On hard surfaces, the leg length of the staple should be twice as long as the thickness of the material to be fastened. A nail should be three times as long as the material to be fastened.

Fine or thin materials
When fastening thin or light material, the leg length of the staple should be 4 mm longer than the thickness of the material. A nail with a round head should be 6 mm longer than the thickness of the material.
